---

Photovoltaic/diesel generators are charged during the day and run off-grid at night. This solution uses 4 sets of 50kW/100kWh modular ESS, which support up to 4 units in parallel.

Use Case: In disaster-stricken areas or humanitarian missions, a 100kW Off Grid Solar System can rapidly provide emergency power for hospitals, communication centers, and refugee camps.

They can be installed in remote areas that are not connected to the national grid, making them an ideal solution for off-grid communities, military bases, and disaster-stricken areas.

Conex King is a leader in shipping container innovation and solar generators and power systems. From custom off-grid and remote mobile offices, emergency shelters, climate controlled storage, ...
