We are committed to delivering customised, sustainable, and high-efficiency energy storage systems for residential, commercial, and industrial applications worldwide.

Sunway 100kW/215kWh Energy Storage System is designed for businesses and utilities looking for a safe, intelligent, and efficient way to store and manage energy.

CTS 100kW/215kWh LiFePO₄ battery energy storage system boosts solar efficiency by 40%, IP54-rated, grid-integrated, trusted by 500+ global sites. Request ROI analysis or technical demo today.

Its compact design supports solar/diesel hybrids, EV charging, and microgrids, while smart monitoring ensures 24/7 performance. Ideal for both urban and remote locations needing uninterrupted, scalable ...

Featuring LFP batteries configured in a 48S1P design, the system offers a total capacity of 215KWh with a rated voltage of 768V. With a discharge depth of 90% and $\leq 1C$ charge/discharge rate, it ensures ...

The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications.

- Empower your business with a 100KW solar system that captures natural sunlight and converts it into clean, sustainable energy. - Benefit from a high-capacity 200KWH LiFePO₄ battery, delivering ...

215KWH ESS with 100KW PCS and Solar Charging System. An energy storage cabinet is a device that integrates an energy storage device and a power management system, which is mainly used to store ...

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

100kW site energy storage cabinet solar container energy storage system

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and the total battery power can be selected ...
