---

Perfect for factories, data centers, EV charging stations, and microgrids, this plug-and-play ESS cabinet provides peak shaving, backup power, and renewable energy optimization --all in a compact, easy ...

Multi-level battery protection system,impeccable safety:fea- tures both grid power and backup power interfaces to ensure unin-terrupted power supply for critical loads. Features black start ...

Supporting both AC and DC coupling, up to 10 units can be connected in parallel, with a maximum capacity of 2150kWh. It adopts a built-in air duct design and supports a charge/discharge rate of ...

The 100kWh lithium battery energy storage cabinet offers high efficiency, flexibility, scalability, and reliable performance. The ingress protection rate of the 100 kilowatt hour battery is IP45, we support ...

Looking for an ODM BESS energy storage system? Our all-in-one outdoor cabinet (50-100kWh) features an IP55 design, LFP cells, and easy expansion for C& I applications.

This engery storage cabinet boasts an advanced All-in-One integrated technology, seamlessly combining PCs, inverters, Battery Management System (BMS), and Energy Management System ...

Handles solar/diesel hybrids, charging stations, and C& I storage with local/remote smart controls. Its integrated design (power+cooling+safety) works in solar, diesel hybrid, and grid-tied setups, with ...

Compatible with various EV models and charging standards, offering wide application versatility. Intelligent management ensures efficient charging and enhances system longevity.

Suitable for charging stations, offices, factories, etc. During device charging, the system automatically monitors the current electrical load and PV generation

# 100kWh ODM Communication Cabinet for Charging Stations

Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution integrates lithium iron phosphate batteries, modular PCS, intelligent EMS/BMS, and ...
