TLS supplies intelligent mobile and containerised waste water treatment plant or sewage treatment plant container, which can be remotely controlled to monitor system condition and water quality.

No planning or buildings are required to operate a containerized wastewater treatment plant - the plant simply needs to be placed on a solid base. This saves costs in advance, and the system is also highly efficient ...

Pure Aqua produces an assortment of containerized and mobile water treatment solutions that are custom-built to fit any application.

Mobile container based waste water treatment plants. Sometimes a mobile, rapidly available or particularly space-saving solution for wastewater treatment is sought.

The ClearFox® Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. As a modular solution, it is easily transportable by land ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Are wastewater treatment plants a sustainable transformation of MWT practices? This study provides valuable guidance for future energy optimization and the sustainable transformation of MWT practices.

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing ...

Our intelligent containerised waste water treatment plants offer a fast and effective above ground portable waste water treatment system solution for any sites, without the need ...

120kW Mobile Energy Storage Container for Wastewater Treatment Plants

These small units offer a rated power of up to 120 kVA and can efficiently couple with diesel generators, boost the available grid and manage energy coming from renewable sources.
