Our LiFePO₄ battery boxes, stocked in the USA, are engineered for safe and efficient energy storage solutions. Ideal for solar, RV, or marine applications, these DIY kits feature robust enclosures and compatible BMS ...

Designed for efficiency, safety, and long-term performance, this advanced lithium battery system leverages state-of-the-art technology to empower your home with reliable energy management.

The local control screen functions, such as monitoring system operation, formulating energy management strategies, can perform a variety of and upgrading remote equipment.

EG4 PowerPro 48V 14.3kWh LiFePO₄ battery with 8,000+ cycles. Wall-mountable, IP65-rated design for safe, long-lasting home & business backup power. Shop now!

Whether your needs entail a steadfast backup power source, the precision of peak shaving, the consistent reliability of enhanced power output smoothness, or the savvy cost-efficiency of managing peak-valley ...

Energy storage cabinet is designed for customer application with power and capacity range requirements of 50kW/100kWh. The system can flexibly scalable the battery cabinet according to customer needs.

The 14.336kWh floor cabinet LiFePO₄ battery (51.2V 280Ah) is designed for both residential and commercial solar ESS. Its movable cabinet design with wheels, combined with advanced BMS, provides reliable and safe ...

The system offers flexible configuration, compatibility with most EV brands, and is suitable for various industrial and commercial applications such as microgrids and solar storage.

This battery box designed for low-voltage residential indoor energy storage applications. Utilizing advanced

280ah power battery and solar battery cabinet

lithium iron phosphate (LiFePO₄) cells, these batteries offer exceptional safety and reliability.

Power your energy independence with the LINIOTECH 14.33kWh LiFePO₄ Battery - 48V 280Ah, the ultimate floor-mounted energy storage solution for off-grid, hybrid, or grid-tied solar systems.
