1500W 48V Permanent Magnet Generator Low Speed Brushless Alternator Pure Copper Coil For DC Charging System in Alternators.

**BRIEF INTRODUCTION** - This three-phase wind turbine is a permanent magnet generator with high efficiency and stable performance, with a rated speed of 600rpm. The rated ...

Explore a wide range of our 48V Permanent Magnet Alternator selection. Find top brands, exclusive offers, and unbeatable prices on eBay. Shop now for fast shipping and easy returns!

Engine mounted 48V generator using a permanent magnet alternator (PMG). Delivers compact, fuel-free DC power for EVs, mobile equipment, and hybrid drives.

Introducing the FLTXNY Permanent Magnet Generator, designed for ultimate efficiency. Available in 12V, 24V, or 48V, this 3-phase gearless alternator is perfect for wind or water turbines, or even diesel ...

We sell our permanent magnet alternators for use in wind generator or micro hydro generator as well as a host of other applications including human power and inventors.

It is wound with high-quality pure copper wire, so that this permanent magnet generator has higher efficiency, the wind turbine and generator have better matching characteristics, more stable and ...

Problem 1: Low Efficiency For Most 48V Alternators  
Problem 2: Low Power Ratings For 48V Alternators  
48V Generator Solutions  
Innotec"S 48 Volt Alternator  
Most 48V alternators that are readily available, have low efficiency through either the design of the alternator (below 80%) or the conversion to DC voltage (through brushes or rectified with power regulation). This conversion to DC can be below 50% depending on the application. From an energy efficiency perspective, this is horrible.
