View of the Ivanpah Solar Power Facility from the Yates Well Road exit of the I-15 Freeway. The largest investor in the project was NRG Energy, a generating company based in Princeton, New Jersey.

To view thumbnails of aerial photographs showing solar energy installations available for immediate online license or prints, please consult aerial photographs of solar farms and installations.

This aerial photo taken on February 23, 2022, shows floating solar panels for the Sirindhorn Dam hydro-solar farm run by the Electricity Generating Authority of Thailand in Ubon ...

Large-scale integration of photovoltaics (PV) into electricity grids is challenged by the intermittent nature of solar power. Sky image-based solar forecasting has been recognized as a promising approach to ...

# Aerial photography of solar power generation base

An aerial view of a solar power plant, also known as a solar park, is a large-scale photovoltaic (PV) system designed to supply commercial electricity to the grid.
