-----

372 kWh liquid-cooled cabinet battery storage system. Intelligent liquid-cooled temperature control, reduce system auxiliary power consumption. Configure the local control and remote monitoring ...

From a single cabinet at 372 kWh for your building, facility, or fast charger, to expansive solutions scaling up to tens of MWh for large-scale battery plants, our systems grow with your needs.

The modular design enhances flexibility in parallel connection schemes and offers higher energy density, significantly improving the economics, safety and construction convenience of energy storage projects.

Liquid-cooled Battery Cabinet ECO-B372LS The liquid-cooled battery cabinet adopts advanced cabinet-level liquid cooling and temperature balancing strategy.

Built-in high-voltage battery cluster, high-voltage box, isolation transformer, STS module, DC power module, and it can connect to the solar panels, with integrated design, easy for installation and ...

The GSL ENERGY BESS-372K is a 372kWh, 1331V liquid-cooled battery storage cabinet developed for commercial and industrial energy storage applications across the USA and Canada.

The 372kWh LiFePO4 Solar Battery Storage Cabinet is a renewable energy commercial and industrial-scale intelligent energy storage system. Engineered with superior quality lithium iron phosphate ...

372kWh Liquid-cooled Outdoor Cabinet for Lithium Battery Cabinet-type Battery Lithium Battery Rental Cabinet

A: We are factory located in Jiangyin Jiangsu Province. Q: Does your company provide customized manufacturing? A: We provide OEM/ODM service to our customers. Our experienced R& D team will ...
