-----

New South Wales has awarded long-term energy service agreements to six battery energy storage projects totaling 1.17 GW and nearly 12 GWh, lifting the state's contracted storage capacity ...

Finnish energy giant W&#228;rtsil&#228;; has announced the latest addition to its massive network utility-scale battery energy storage system (BESS) projects in Australia: a record-breaking 1.5 GWh...

Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the next 3 years.

Australia's clean energy transition has reached an important milestone. Five ARENA-funded large-scale battery storage system (BESS) projects, equipped with grid-forming (GFM) ...

Australia is leading the global battery storage boom with AUD 2.4B invested in Q1 2025. Discover how big batteries are replacing coal, stabilizing the grid, and driving the nation's clean ...

At the end of 2024 there are 82 renewable electricity generation projects in Australia that have been financially committed or are under construction, representing 12.5 GW of capacity, with 69 ...

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the financial ...

Updated: Big battery projects currently being rolled out in Australia are more than ten times bigger than the first installed in 2017 at Hornsdale. Here are the 10 biggest.

Australia's energy market hit a turning point in 2025. As rooftop solar growth slowed, battery installations surged to record levels, reshaping how homes and the grid use electricity. This ...

From the 2.4 GW Denman BESS to the 850 MW Bremer and Waratah Super Batteries, these seven BESS

# Australian power storage projects

projects Australia alone will deliver tens of gigawatt-hours of storage across New South ...
