With LFP battery technology, advanced EMS and PCS, it enables real-time monitoring, smart schedule, and seamless integration with solar PV, EV charging, and backup power.

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM.

With an annual capacity of 60,000 battery modules, the new automated lithium battery production line integrates intelligent loading, high-speed laser welding technology, robotic stacking, and precision ...

Core highlights: The liquid-cooled battery container is integrated with battery clusters, converging power distribution cabinets, liquid-cooled units, automatic fire-fighting systems, lighting systems, pressure ...

We specialize in advanced photovoltaic energy storage solutions, providing high-efficiency battery cabinets designed for reliable, sustainable, and clean energy.

The ZincFive BC 2 UPS Battery Cabinet is a nickel-zinc immediate power solution (IPS) that brought innovation in cabinet design and industry leading footprint to the BC Series.

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play designs ...

With lithium battery prices projected to drop 22% by 2025 (BloombergNEF data), now is the time to plan your energy transition. Whether you're upgrading telecom infrastructure or developing solar farms, ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..
