How big is Bulgaria's energy storage capacity?

A recent capacity tender has already allocated nearly 9,713 MWh to upcoming projects, further reinforcing the country's ambitions in energy storage. Before the commissioning of the Lovech facility, Bulgaria's largest BESS was a 25 MW / 55 MWh system developed by Renalfa IPP in 2024.

Why is Bulgaria building a new power plant?

Energy Minister Zhecho Stankov hailed the installation as a milestone for Bulgaria's energy independence and regional leadership. "This facility will help maintain the most stable energy system in Southeast Europe," he said. "We are the pillar of the Balkans in balancing electricity systems."

Will Bulgaria reach 10 GWh of battery storage capacity?

The new system also signals the beginning of Bulgaria's national plan to reach 10 GWh of battery storage capacity within the next year. A recent capacity tender has already allocated nearly 9,713 MWh to upcoming projects, further reinforcing the country's ambitions in energy storage.

Where is a Bess power plant located in Bulgaria?

A BESS facility of 124.1 MW in operating power was inaugurated in Lovechin Bulgaria. Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system.

The utility-scale sector dominates the installed solar capacity, with a share of 77%. The battery energy storage system (BESS) market in Bulgaria will experience robust growth by 2030 in ...

The energy storage system, situated within the Balkan Industrial Park in Lovech, was built from 111 battery containers. This technological core of the modern storage system aims to ...

Bulgaria has taken a major step forward in its renewable energy strategy with the inauguration of a 124 MW / 496.2 MWh battery energy storage system (BESS) in the north-central ...

A new high-tech factory for the production of battery energy storage systems of International Power Supply (IPS) was opened in Friday in the Hemus Industrial Park in Sofia, the ...

Bulgaria energy storage industrial park

A battery energy storage system (BESS) described as the largest deployed to date in the European Union (EU) has been commissioned in Bulgaria. Officials with the country's Ministry of ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system. The Bulgarian city of Lovech, northeast of ...

The technology produced at the new factory is EXERON X-BESS -- a modular battery storage system compatible with a wide range of applications, from industrial sites to large energy ...

International Power Supply (IPS) has officially launched Factory X1, marking the opening of Bulgaria's first battery energy storage system (BESS) gigafactory. Located in the Chelopechene ...

A recent tender allocated nearly 9,713 MWh for new energy storage projects, demonstrating strong momentum in Bulgaria's renewable energy sector. Situated in the Balkan ...
