What are air shipping regulations?

Air shipping regulations categorise certain items as hazardous freight or dangerous goods by air. These items pose risks to the safety of passengers, crew, and the aircraft itself.

Is air shipping safe?

Shipping goods via air freight offers speed and efficiency, but it also comes with responsibilities and regulations, particularly concerning hazardous materials. Understanding the restrictions and prohibitions surrounding air shipping is essential for ensuring compliance and maintaining safety and security in the transportation of goods.

Can a lithium battery be shipped to ups?

Special regulations apply to shipping these batteries. Shipments requiring hazardous materials shipping papers are accepted from contract hazmat shippers only, and certain lithium batteries may not qualify for UPS service.

Can a non-spillable battery be shipped as non-hazardous?

Tested, proven non-spillable batteries are allowed to be shipped as non-hazardous within the U.S. Batteries and packaging must be marked "NONSPILLABLE" or "NONSPILLABLE BATTERY". Both rechargeable and non-rechargeable power sources, common in computers, cell phones, cameras and other small electronic devices.
