Construction will begin later this year. The Big Canberra Battery will be capable of delivering 250 MW of power - more than a third of Canberra's peak electricity demand. It will be able ...

The ACT government announces it's partnering with Eku Energy to deliver the much-hyped Big Canberra Battery which could power one-third of Canberra for two hours.

Battery Specifications: The Big Canberra Battery is a 250-megawatt (MW), 500 MWh (megawatt-hour) energy storage system. It can store enough renewable energy to power approximately one-third of ...

The \$400 million Canberra Big Battery will harvest renewable energy and store enough to run one third of the ACT for two hours. Picture by Sithixay Ditthaving.

Williamsdale BESS will deliver a key stage of the ACT Government's Big Canberra Battery ecosystem, helping the Territory reduce reliance on fossil fuels and achieve its 2045 net zero emissions target.

The large-scale battery will deliver at least 250 megawatts of power. This is enough stored renewable energy to power one-third of the city for two hours during peak demand.

Whether you live in Canberra or elsewhere across Australia, learn everything you need to know about home batteries here.

This is enough energy to power one-third of Canberra for two hours during peak demand periods. Behind-the-meter batteries were installed to help power essential services across nine government ...

It will store enough renewable energy to power one-third of Canberra for two hours during peak demand periods, such as heat waves and cold snaps.

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting

Canberra battery life

the ACT's transition to a more sustainable energy future.
