In this article, we will explain how to build a simple DIY power bank that can charge any USB devices.

Anker Portable Charger, 24,000mAh 65W Power Bank, 537 Power Bank (PowerCore 24K for Laptop), for MacBook Pro, Dell XPS, Surface, iPad Pro, iPhone 14 Pro, Apple Watch Series 5, and More

Overview  
Plugging in Your Power Bank  
Letting the Power Bank Charge  
Ensuring Efficiency  
Use a wall socket in most cases general, wall sockets will charge a power bank faster than a computer or laptop. Stick to charging your power bank through the wall unless you only have a laptop or computer available e only the cable that came with the power bank to charge it. The power bank should come with a charging cable with a USB port and a wall adapter. Avoid using a different charging cable that was not designed for the power bank. See more on wikihow
