What does a wind turbine decommissioning company do?

Specializing in the decommissioning and demolition of wind turbines, ensuring minimal environmental impact while adhering to stringent safety standards. Offering sustainable solutions for the disposal of wind turbine blades, focusing on recycling and repurposing to minimize waste.

What does a wind turbine disposal company do?

Offering sustainable solutions for the disposal of wind turbine blades, focusing on recycling and repurposing to minimize waste. Expertly removing turbine foundations and restoring sites to either their natural state or preparing them for future development, prioritizing ecological preservation.

What is wind Decom?

At Wind Decom, we define the landscape of wind energy demolition, disposal, and decommissioning. With a legacy spanning over a decade, our expertise bridges the gap between the complexities of unplanned disruptions and catastrophic failures with the intricacies of complicated demolition and the decommissioning processes.

What does a turbine foundation contractor do?

Expertly removing turbine foundations and restoring sites to either their natural state or preparing them for future development, prioritizing ecological preservation. Put our experience in foundation construction, retrofits, and repair to work.

MB Spezialabbruch offers professional wind turbine dismantling services, including dismantling of foundations, adjacent outbuildings and grounding cables, as well as subsequent site remediation.

Explosive Felling Services
Dismantlement of Wind Turbines
Removal and Disposal of Blades
If our explosive felling services are not conducive to the particular demolition job, we can also employ meticulous dismantlement services. Wind turbine dismantlement is an eco-friendly solution that involves carefully disassembling the components of your turbine(s) and foundation removal for site restoration afterward. These components may then be...
