The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive. This new coupling of solar and agriculture is growing fast.

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican City.

A solar panel system is being built on the 424 hectares of extraterritorial land in Ponte Galeria, which within a year will make the Holy See the first zero-emission state in the world.

Italy and the Holy See agreed to develop the 430-hectare Santa Maria Galeria site north of Rome into a solar farm designed to meet the Vatican's full electricity needs, with any excess ...

In 2024, the late Pope Francis issued an apostolic letter ordering the construction of an agrivoltaic solar plant to supply the Vatican with energy from Santa Maria di Galeria.

This dual-purpose system combines solar energy production with agricultural land use, allowing crops and solar panels to coexist on the same property. Vatican City joins Albania, Bhutan, ...

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs.

Vatican City is on track to become the 8th country in the world to generate 100% of its electricity from renewable energy, following Pope Francis' announcement about plans to build a large solar plant.

Pope Francis announces his plans to transition the Vatican to 100% solar power to support climate change efforts.

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar
