Explore our range of lithium-ion cabinets, meticulously engineered with cutting-edge fireproof battery storage technology, ensuring a secure and reliable solution for energy storage.

Offering rapid battery swaps, robust power management, and compatibility with various electric vehicles, these advanced battery swap systems feature IP55-rated protection, intelligent BMS with multiple ...

For example, an IP65-rated cabinet provides excellent resistance to water and dust, making it ideal for outdoor use. By choosing a weatherproof design, you ensure your batteries stay ...

The IP55 UPS Battery Cabinet is a high-protection enclosure designed for storing and managing batteries in UPS backup power systems, especially in outdoor or harsh environments.

Outdoor Lithium ion Battery Enclosure mainly provides a stable working temperature and dust-free environment for lithium battery, they are integrated with thermal insulation and equipped with air ...

Customizable layout supports various battery types such as LiFePO₄, NMC, and lead-acid, with flexible space design for modular or full-pack configurations. High protection ratings including IP55, IP65, ...

All-in-One Design: Compact, pre-assembled solution for easy deployment and reduced installation time. **High Scalability:** Modular architecture allows for flexible capacity expansion. **Robust Protection:** IP54 ...

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

The modular charging cabinet provides a modularized and preassembled modular charging cabinet, does not need to be installed on site, and is convenient to transport and use.

Dustproof type of energy storage cabinet for battery swapping stations

SWA ENERGY outdoor cabinets are engineered for harsh environments and long-term outdoor operation. With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they ...
