What is the tariff rate for imports from Egypt?

The current tariff rate for imports from Egypt is 10%. However, this rate can vary depending on the specific product category and any applicable trade agreements or exceptions. How do Egypt tariffs affect import costs? Egypt tariffs directly increase the cost of importing goods by 10% of the product value.

Why does Egypt have a 10% tariff rate?

Egypt's relatively light 10% rate could provide competitive advantages compared to other nations facing higher duties. Tariffs are taxes imposed on imported goods and services. Currently, the tariff rate for 10% applies to imports from Egypt. This represents additional costs that importers pay when bringing goods into the United States from Egypt.

What are Egypt's new tariffs on screens and monitors?

A unified tariff of 40 percent has been applied on television screens and monitors. Fees have also been decreased on Egyptian imports of stained-glass windows and glass panels used in manufacturing processes from 50 percent down to 20 percent.

How did presidential decree 419 2018 affect import tariffs?

Presidential Decree No. 419/2018 increased import tariffs on over 300 goods. The decree modified customs duties on over 5,700 HS tariff lines, impacting more than 300 separate product categories across raw materials, capital goods, consumer goods, agricultural items, and more.
