Our professional team ensures that each energy storage cabinet meets high quality standards, ensuring stable deliveries that meet customer expectations from design to manufacture.

Customizable Solutions: We offer energy storage cabinets that can be customized in size, capacity, and features to meet specific project requirements, ensuring optimal integration and performance.

EPC energy provides containerized energy storage systems that help achieve a sustainable future. We can build or add energy storage to existing PV projects.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...

An energy storage cabinet pairs batteries, controls, and safety systems into a compact, grid-ready enclosure. For integrators and EPCs, cabinetized ESS shortens on-site work, simplifies compliance, ...

Delta EMS integrates renewables, EV charging, and energy storage, enabling centralized dispatch and AI-driven control for optimized efficiency. It provides real-time monitoring via a graphical interface ...

Mortenson, the EPC contractor, is partnering with Terra-Gen, LLC, bringing the world's largest solar and battery storage project to life. The project consists of 864 megawatts of solar and 3,287 megawatt ...

Electronic Contractor for 1500V Energy Storage Cabinet Project

Our battery energy storage systems are perfect for energy shifting and peak lopping, making them an excellent choice for any renewable energy project. The cabinets are sized to enable mounting of all ...
