Fiscal Year 2026 Budget Justification documents to support the Department of Energy Budget Request to Congress

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid. In a strong ...

Emergency order increases grid stability and minimizes the risk of energy shortfalls in the Mid-Atlantic region of the United States.

“Developing faster, more accurate resource evaluation tools, and creating a new more powerful class of magnetic materials will enable America to unlock domestic reserves, strengthen ...

In a global context where energy storage is becoming critical for grid reliability and decarbonization, Argentina's over-subscribed tender illustrates the appetite for scalable, bankable ...

To compete globally, we must expand energy production and reduce energy costs for American families and businesses. America must lead the world in innovation and technology ...

Argentina's Energy Secretariat has issued a pivotal international call for proposals aimed at integrating 500 megawatts (MW) of battery energy storage systems (BESS) within the ...

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...

The Ministry of Economy of Argentina has issued a national and international open call "GBA Storage -AlmaGBA", aimed at contracting 500 MW of electric energy storage plants in critical ...

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution...

Learn more about America's energy sources: fossil, nuclear, renewables and electricity.

Learn more about the advantages of wind energy, solar energy, bioenergy, geothermal energy, hydropower, and marine energy, and how the U.S. Department of Energy is working to modernize ...

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compa&#241;&#237;a Administradora del Mercado ...

The U.S. Department of Energy (DOE) today announced over \$320 million in investments to rapidly advance the Genesis Mission's artificial intelligence (AI) capabilities.

With President Trump and Secretary Wright's leadership, the Energy Department has ushered in an unprecedented era of energy dominance, resulting in record energy production and ...
