We then develop a recommendation, based on our professional experience, for the most cost effective cable assembly solution - matching the right cable, connector and assembly configuration.

The integration of the essential components such power, control and fiber optic necessary for the operation of a latest generation electric motor, involves the aggregation in a single cable of the power ...

connectorized kits which bundle energy, control and data cables for wind turbine electronics. Also, cut-to-length, pre-connectorized, all-power cables are supplied to tower manufacturers for generator-to ...

NKT offers cables as well as cable accessories for grid connections and internal network between turbines. Wind farms have specific requirements on the cable accessories because of ...

The optic tower cable ensures reliable communication between the Hirschmann(TM) switches in the top and bottom cabinets of the wind turbine. The central loose tube cables enable undisturbed ...

The invention has the advantages of high construction speed, shortened cable adjusting time, saved construction cost, small environmental limit of construction sites, reliable anchoring...

Cable Solutions has developed photovoltaic cable and solar connector assemblies to interconnect the solar PV panels to the distribution grid. We also offer electrical cables for integration into the solar PV ...

In many wind power applications, the heavy duty modular connector reduces the number of interfaces required by allowing users to configure the exact interface required for an application within a single ...

Our technical and industry experts are experienced and knowledgeable in supporting integrated projects and can support specification from turbine all the way through to grid distribution. For more ...

Fixed buckle for wind power cable of solar telecom integrated cabinet

For guaranteed safe cabling of your wind turbines, HEW-KABEL is by your side! Quickly and accurately - our full-service custom solutions have been developed specifically for the extreme operating ...
