The lithium-ion batteries will hold a combined 765 megawatts of power at four energy-storage sites around the state.

ATLANTA - Construction is underway on battery energy storage systems (BESS) at four locations across the state, Georgia Power officials announced Wednesday.

Georgia Power announced that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd ...

Georgia Power announced today that it has started construction on a battery energy storage system in Twiggs County, southeast of Macon, Ga.

As of late 2025, Georgia hosts approximately 146 MW of operational battery energy storage capacity, with another nearly 4,000 MW under construction, approved, or in development across its utility ...

As a part of an All-Source Request for Proposals (RFP), Georgia Power is currently seeking approval from the Georgia PSC of 10 new BESS facilities with a total capacity of 3,022.5 MW ...

Although the state is just starting to explore the possibilities of battery energy storage, Georgia has been a hotbed for renewable energy development since the passage of the IRA, ...

Georgia is on track to deploy more than 1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by economic growth and evolving grid ...

Lithium battery provider NeoVolta announced it would begin manufacturing battery energy storage systems (BESS) in Pendergrass, Georgia. Through a joint-venture with Longi and ...
