How much does a solar inverter cost?

A solar inverter costs \$1,500 to \$3,000 total on average for a medium-sized solar-panel system installation. Solar inverter prices depend on the size and whether it's a string inverter, microinverter, or hybrid model. String inverter systems cost less up front, but systems using microinverters last longer.

Where should a solar inverter be installed?

Depending on the type, contractors install inverters directly on the backside of the solar panel, on the side of the house, on the roof, or inside a garage. Get free estimates from solar panel installers near you. Factors that affect solar inverter costs include:

How much does solar installation cost?
