Irish state-owned electricity company ESB has opened a 150MW/300MWh battery energy storage system (BESS) at its Aghada site in Co Cork. The project is the latest step in ESB's commitment ...

ESB has opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability and deliver more renewable ...

“These batteries support energy security, reduce peak prices and help to maximise the benefit of renewables. “This is the latest of ESB's "Invested in Ireland" projects, with over EUR300m recently invested in ...

This battery-energy-storage system (BESS) is part of a larger EUR300 million investment by ESB in projects across Cork and Dublin. In 2022, ESB completed its first BESS project in Aghada, which has a ...

This battery energy storage system (BESS) project is the latest in ESB's pipeline of projects delivered at sites in Dublin and Cork which are part of its investment of up to EUR300m in the technology.

This battery-energy-storage-system (BESS) is the latest in ESB's pipeline of projects to be delivered at sites in Cork and Dublin, which are part of its investment of up to EUR300m in the technology.

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as ...

The project, designed to enhance grid stability and integrate more renewable energy into the electricity system, is part of ESB's EUR300 million investment in energy storage technology.
