Zheng Yue, President of Huawei Digital Energy's Smart PV Product Line for energy storage, unveiled a new generation of all-scenario smart string networked energy storage platform, ...

During the Intersolar Europe 2023 held in Munich, Germany, Huawei successfully hosted the launch event for its new smart photovoltaic (PV) & energy storage (ESS) products and solutions.

Zheng Yue launched Huawei's next-generation full-scenario intelligent modular grid-forming energy storage platform, including new products for utility-scale and C& I applications.

Learn how a robust storage strategy can transform renewable energy adoption and ensure sustainable power system infrastructure.

Designed to address challenges in renewables grid integration and ESS safety, the Huawei platform offers all-scenario grid forming, cell-to-grid safety, full-lifecycle cost-effectiveness ...

Huawei Digital Power has unveiled its top 10 trends for smart PV and energy storage systems (ESS) in 2026, emphasizing all-scenario grid-forming, AI integration, and renewable energy ...

Leading this transformation is Huawei, which continues to expand its grid-forming energy storage strategy with new global deployments and the launch of its next-generation Smart String ...

Huawei's Smart String Grid Forming ESS gleans more value from energy storage through power electronics technology, as well as ensuring grid safety and stability through digital intelligence. ...
