In recent years, the local power sector of Hebei has been promoting power grids construction of Xiong'an New Area in accordance with the standards of first-tier cities in China.

To realize the high-standard construction of the new area, the Xiong'an regulating engineering project is required to satisfy its long-term demand for stable wa

Discover our hybrid power solution for energy-powered outdoor communication. Maximize resilience with dynamic refrigeration and advanced battery management. Explore robust, corrosion-resistant infrastructure.

This innovative solution covers core products such as 10kV - 0.4kV intelligent low-voltage switchgear, household meter boxes, and power cabinets, demonstrating CHINT's strong independent ...

At the recently held Jing-Jin-Ji Electricity Expo, we proudly unveiled our revolutionary new product - the Voice-Controlled Power Distribution Cabinet - marking its first public showcase in the Xiong'an New Area.

Across the power grid in Xiong'an, innovation is thriving. In the power tunnels, "17+3" types of Internet of things sensing terminals enable comprehensive monitoring and interaction of data related to the ...

Power cabinets in hybrid systems ensure reliable energy flow, protect telecom equipment, and optimize renewable energy use for cost and eco benefits.

(Xinhua/Mu Yu) A man walks past a PEDF (Photovoltaic, Energy Storage, Direct current, Flexibility) system in Huangwan Village of Xiong'an New Area, north China's Hebei Province, April 15, 2025.

ICEENG CABINET serves customers in 18+ countries across Africa, providing outdoor communication cabinets, power equipment enclosures, and battery energy storage cabinets for telecommunications, utilities, and ...
