In the largest IKEA warehouse in Europe, a strategic partnership between Veolia, Green Power, and IKEA has successfully deployed a solar energy storage system.

IKEA has long been a pioneer in making stylish home goods accessible, but now the Swedish company is turning its sights to the energy market. In an exciting move for eco-conscious ...

When the company started working on renewable energy, it made the most sense to own renewable energy directly, and Ikea stores are now plastered with more than 900,000 solar panels. It ...

Does IKEA sell solar panels? By teaming up with SunPower, IKEA is offering exclusive access to high quality, innovative solar power and products for IKEA Family members, making it simple to switch to ...

If you love IKEA's smart home tech, then you're in for a real treat: the company just launched its lineup of renewable energy solutions in the UK, which includes solar panels, heat pumps,...

In September, IKEA U.S. announced two major sustainability initiatives: a set of solar installations at seven different locations and an overhaul of the heating and cooling systems at five other stores.

With a starter package that includes two 450-watt panels and a user-friendly "plug-and-play" installation method, IKEA is poised to make solar power more accessible than ever. Although ...

In the U.S., IKEA has a robust renewable energy portfolio -- including 2 wind farms, 2 solar farms, 2 geothermal systems, seven biogas-fuel cells and rooftop solar arrays on 90% of IKEA ...

We develop, construct, acquire and operate utility-scale wind, solar and storage projects and sell renewable energy to reduce the climate footprint of Ingka Group and the IKEA value chain.

IKEA's largest retailer, Ingka Group, has announced an additional EUR1.5bn investment to accelerate its
