The NSSE Power Plant, built on approximately 87 hectares of land, is the first utility-scale integrated solar and energy storage project in Nusantara, Indonesia.

Comprising a 50 MW solar farm with a 14.2 MWh battery energy storage system, this project is Sembcorp's inaugural venture into large scale solar development in Indonesia.

The NSSE Power Plant is the first utility-scale integrated solar and energy storage project in Nusantara, Indonesia and Sembcorp's inaugural venture into large-scale solar development in ...

The Upper Cisokan Pumped Storage Power Plant Project is the country's first pumped storage power plant with an output of 1,040 MW in the upper reaches of the Citarum River Basin in West Java ...

The Nusantara Sembcorp Solar Energi (NSSE) power plant comprises 50MW of solar PV and a 14.2MWh battery energy storage system (BESS). It is located on 87 hectares of land in ...

Indonesia will build a 100 Gigawatt (GW) Solar Power Plant (PLTS). The program plans to build 80 GW of solar power plants and 320 GWh of Battery Energy Storage System (BESS) to be ...

These solar-plus-storage mini grids are set to be installed in 80,000 villages across Indonesia and will be managed and operated by village cooperative Merah Putih. A target of 10,000 ...

Operated by the village cooperative Merah Putih, these solar-plus-storage mini grids aim to provide affordable, reliable power while reducing dependence on costly diesel generators. The ...

Sembcorp Industries Ltd has officially launched Indonesia's first utility-scale integrated solar and energy storage project, the Nusantara Sembcorp Solar Energi (NSSE) Power Plant.

Indonesia's large-scale emergency energy storage power plant

These solar-plus-storage mini grids are set to be installed in 80,000 villages across Indonesia and will be managed and operated by village cooperative Merah Putih. The initiative also ...
