Built on former ash dump fields, this is the first large-scale photovoltaic plant in Kosovo.

As Kosovo aims for 35% renewable integration by 2027 (up from current 6%), container systems are becoming the glue holding everything together. Hybrid solar+storage projects are popping up faster ...

Kosovo's new energy storage project isn't just about storing electrons--it's about securing energy sovereignty while meeting climate goals. As battery tech evolves and renewables expand, this ...

A photovoltaic system is being built on the areas where ash from the two coal-fired power plants at Kosovo A was previously deposited. It will have an installed capacity of up to 100 MW and produce ...

A significant project called Solar4Kosovo is underway, which aims to install a solar photovoltaic plant with a capacity of up to 100 MW on former ash dump fields near the Kosovo A ...

Kosovo has achieved a significant milestone in its transition to renewable energy by approving 107 MW of new solar projects in its latest auction. The record-low price of EUR0.06499 (\$0.069) per kWh secured ...

The project concerns the development of a 100MWac solar photovoltaic power plant (120 MWp), located between Obilic and Fushe Kosova, in close proximity to Pristina, in Kosovo.

In line with Kosovo's current focus of transitioning towards an energy future that is more secure, sustainable, reliable, and affordable, the Kosovo Compact focuses on addressing Kosovo's ...

As a CP, Kosovo has taken on a number of obligations deriving from the EnCT, including mandatory targets for renewable energy (RE) share in the final energy consumption.

Kosovo solar container communication station EMS solar power generation installation

To increase the production of renewable energy and reduce the environmental impact of the coal operations for power generation in Kosovo
