Slovenian energy company GEN-I has constructed the largest solar plant in North Macedonia, which will generate 25,000 megawatt hours of green energy to meet the needs of more ...

This project highlights the successful collaboration between EVN Macedonia Elektrani and Solar Spektar AG and marks a significant milestone in our ongoing commitment to sustainable energy solutions.

With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15-18 September.

In North Macedonia, we completed the construction of our largest solar power plant and connected it to the grid. With a total capacity of 17 MW.

The May Energy company completed the 55 MW photovoltaic plant in Novaci, making Macedonia the largest solar plant in the region. The Western Balkans has been slow to deploy solar ...

Panels are attached on 888 metal frames manufactured in the Republic of Macedonia, with single axis adjustment system (summer, winter, spring and autumn angle).

Slovenia-based GEN-I connected its 17 MW solar power plant southeast of Skopje to the grid four months before the deadline. It is the largest photovoltaic facility in North Macedonia and the ...

EcoSync has successfully launched a 20MW solar project in Macedonia using 550W bifacial modules, paving the way for clean and sustainable energy solutions in the region.

Fortis Energy's plant is the biggest in North Macedonia and second-biggest in the Western Balkans. It trails only the Karavasta facility in neighboring Albania. Several large ...

A significant turning point in North Macedonia's solar energy landscape occurred in December 2020 with the

Macedonia s largest solar panel factory

launch of the first 1.48 MW solar plant by EVN Macedonia in Voshanci.
