-----

Shri Manohar Lal, Minister of Power and Housing & Urban Affairs, today inaugurated India's largest and first MWh-scale Vanadium Redox Flow Battery (VRFB) system of 3 MWh capacity.

India today inaugurated its first megawatt-hour-scale Vanadium Redox Flow Battery system, in a step to build long-duration energy storage capacity.

Flow Batteries, along with solid state batteries, are one of the next generation battery technologies and are emerging as an alternative to lithium-ion for grid-scale applications, offering ...

India's largest and first MWh-scale Vanadium Redox Flow Battery (VRFB) system of 3 MWh capacity has been inaugurated.

New Delhi, India - November 1, 2025 - We partner with Allegro Energy to bring their breakthrough Microemulsion Flow Battery (MeFB) technology to the Indian market.

New Delhi: In a landmark achievement for India's clean energy transition, Power Minister Manohar Lal Khattar inaugurated the country's first MWh-scale Vanadium Redox Flow Battery ...

It positions India among the few nations globally -- alongside the U.S., Japan, and Australia -- that have demonstrated grid-connected flow-battery systems of comparable scale.

The system was developed by Delectrik Systems, a Gurgaon-based company specializing in energy storage technology, particularly in flow battery systems. The project uses ...

New Delhi, 11 November 2025: Hon'ble Minister of Power and Housing & Urban Affairs, Shri Manohar Lal, inaugurated India's first MWh-scale Vanadium Redox Flow Battery (VRFB) system at NTPC's ...

The California flow battery startup Quino Energy is continuing to forge new connections in the US while
