---

Black & Veatch designed, procured and constructed a microgrid for Shell, which is using it to generate power while it also serves as a working test lab to explore advancements in renewable energy.

Since 2018, the NCU research team has gradually built up an on-campus microgrid demonstration area to conduct advanced research into power dispatching, energy sharing, and ...

The system is installed in a microgrid test bed at NLR's Energy Systems Integration Facility with load banks that emulate microgrid critical loads and a programmable AC power supply ...

The Reorg demonstration will take place near Aspen, Colorado, and will apply newly developed controls for multiple assets including rooftop solar, energy storage, electric school buses, ...

Read about the transformative trends underscoring how microgrids are driving the New Energy Landscape in 2025.

The project will demonstrate the resiliency and reliability of a renewable hydrogen microgrid that can power neighborhoods - just in time to kick off National Clean Energy Week.

GridFlow's lithium-ion flow battery is a next-generation energy storage system that separates sulfur into a liquid reservoir capable of providing electricity for 20 or more hours for safer, ...

Occidental Arts & Ecology Center (OAEC), in partnership with RE-volv and Vital Energy Solutions, recently installed a 124-kW solar and 540-kWh battery storage system at their 80-acre ...

In August 2013, the Energy Department announced partnering with the State of New Jersey, NJ Transit, and the New Jersey Board of Public Utilities to assess NJ Transit's energy needs and help develop a ...

# New Energy Microgrid Demonstration Site

Design 100% carbon neutral microgrids at the lowest cost. More than 215,000 microgrid and DER designs have been optimized through Xendee. Minute-by-minute AI enabled forecasting for ...
