---

In addition to custom design, we offer a range of standard free-standing kits from 100-1100W. We design and engineer custom Solar Power Systems for Oilfield Services, Gas Pipelines, Off-shore Drilling, ...

Available for purchase or rental, our mobile off-grid power systems are fully self-contained, harnessing both wind and solar through small scale wind turbines and solar photovoltaics (PV) panels to capture ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Our on-site solar energy kits are capable of providing all necessary power without the need of a grid. Our reliable design means there will be no lapses of power, keeping the pipeline charged and protected.

For the products, Each set solar power system has power on& off test 100 times per hour.Each step of production is under strict quality control. Our products are qualified with CE, ROHS, ISO, SGS ...

It is a complete solar setup that comes with highly efficient solar panels.off-grid solar inverter, lithium ion battery or gel battery, and other standard solar accessories. This solar system will not only provide ...

Powered by premium 610W panels, the 100KW Mobile Solar Container from HighJoule delivers maximum energy density in a compact 20ft format. It's optimized for grid-tied setups requiring ...

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites ...

Modular, solar-powered shipping-container systems for remote living and businesses. Complete off-grid power solutions built by licensed electricians at Danger Electric.

## Off-grid solar-powered container for oil platforms 100kW

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.
