Gatineau-based energy company Evolugen is looking to build a battery energy storage system (BESS) in the community of South March in a project the company says will help address a ...

These systems can include renewable energy sources such as wind turbines in neighbourhoods, solar panels on homes and businesses, and battery technologies for storing excess power.

The Agriculture and Rural Affairs Committee today approved Official Plan and zoning amendments to establish land-use policy for siting Battery Energy Storage Systems (BESS) in Ottawa.

The proposed Project is in the feasibility stage and consists of installing battery modules, some additional power equipment, light civil, safety, and security infrastructure.

Proposed amendments to the Zoning By-law, summarized in Document 2, will add a new definition for Battery Energy Storage System, including as a principal and accessory land use, as well as amend ...

Essentially, a BESS is a massive collective battery -- in this case a lithium ion battery -- to store electricity and distribute it as needed. The proposed property totals about 81 hectares of land.

Once complete, the new Skyview 2 Battery Energy Storage System will provide enough capacity to power nearly 400,000 homes, strengthening the province's electricity grid and protecting ...

Ottawa, Ontario, is often overlooked for Montreal and Toronto, but it's the perfect summer break for both nature and city lovers, with lush parks, historic landmarks, and a ...

Here in Ottawa, we have a local developer, Evolugen, looking to build two BESS projects. These projects will improve reliability for rural residents and ensure these communities don't fall victim to ...

Ottawa solar base station 20 000 flow batteries

Rural Ottawa city councillors refused support to three companies bidding to build batteries for storing renewable energy, saying they want more reassurances the projects -- each multiple...
