Trim comes in 84" lengths of black powder-coated aluminum. Pieces can be cut to length to fit the array edge. IronRidge Contour(TM) Trim elevates the look of any solar array by providing a sleek trim (or ...

Edge Trimming Machine Used for edge trimming of laminated PV modules to remove excess encapsulation film, glass burrs, or backsheet overflow, ensuring clean edges and precise dimensions.

Applications: Perfect for Solar Panels. Designed for Sealing Gaps in Solar Photovoltaic Systems, Ensuring Waterproofing, Dustproofing, and Long-term Durability.

IronRidge Contour Trim enhances solar arrays by hiding components beneath panels. Comes in 84" black powder-coated aluminum, cut to fit any array edge.

IronRidge Contour ® Trim elevates the look of any solar array by providing a sleek trim (or skirt) across the bottom edge to hide components that are visible beneath the solar panels.

They are usually thin strips that fit into slots in the baffles and extend outward toward the shell wall to block the bypass flow and force it back into the tube bundle.
