The Qingyu UHVDC power transmission line that the plant supports stretches 1,563 km from Hainan in Qinghai Province to Zhumadian in Henan Province and is capable of lighting up the ...

A photovoltaic project with a power generation capacity of 900 MW went into operation on Sunday in Northwest China's Qinghai province.

"I find it interesting to examine how Qinghai maintains the balance between this energy development and environmental protection." The Spanish correspondent found the answer at this ...

The complex and highly strategic concentrated solar power technology serves as a key support for Qinghai's integrated clean energy system combining solar PV and solar thermal power.

Recently, Qinghai Company's Hainan Base under CHINA Energy in Gonghe County has successfully connected the fourth phase of its 1 million kilowatt "Photovoltaic-Pastoral Storage" ...

Qinghai Gonghe 50MW Photothermal Power Station is located in the Ecological Solar Power Generation Park of Gonghe County, Hainan Prefecture, Qinghai Province. It adopts molten ...

This page provides information on Power China Qinghai Gonghe - 50MW Tower CSP project, a concentrating solar power (CSP) project, with data organized by background, participants, and power ...

It's not hard to see why there has been a mad rush to roll out a veritable carpet of solar panels across the region, along with other green energy power generation plants: Qinghai boasts ...

Please refer to our Further Information on SD-Tool.

Gonghe Photovoltaic Project is a 3,182MW solar PV power project. It is located in Qinghai, China. According to GlobalData, who tracks and profiles over 170,000 power plants ...
