As a trusted global provider of energy storage and battery solutions, Aeson Power remains committed to delivering safe, clean, and affordable energy, bringing sodium-ion battery

Blue Whale Energy aims to deploy an initial 8 MWh of sodium-ion solar-plus-storage systems by the end of 2025, with plans to expand across Southeast Asia from 2026, accelerating the ...

Blue Whale and UNIGRID partner to deploy safe, modular sodium-ion rooftop storage across Southeast Asia's cities.

Blue Whale Energy plans to deploy an initial 8 MWh of sodium-ion solar-plus-storage systems by the end of 2025.

Blue Whale Energy, a virtual power plant developer based in Southeast Asia, has announced a partnership with UNIGRID, a company specialised in sodium-ion batteries, to launch behind-the ...

Earlier this year, the city-state launched the region's largest battery energy storage system (BESS). Construction of the 285MWh giant container-like battery system was built in just six ...

A new partnership aims to deploy an integrated solution combining solar PV with sodium-ion batteries at commercial and industrial (C& I) sites in Southeast Asia.

Understand the vital role of battery energy storage in Southeast Asia's transition to reliable and sustainable energy sources.

Blue Whale Energy and UNIGRID partner to bring safe, space-saving battery storage to Southeast Asian cities using sodium-ion technology.
