While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading...

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

Multiple agencies are working to help homeowners avoid scams and get help if they've been victims of deceptive practices. Federal agencies say they've gotten complaints about a small ...

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

Fueled by a drop in solar panel costs, an urge to fight climate change, the availability of real but sometimes confusing government incentives and a desire to save on rising energy bills, solar ...

We provide a comprehensive review of experimental studies that assessed the performance of a solar chimney for power generation.

Solar Chimney Power Plants (SCPPs) offer a promising method for harnessing solar thermal energy at low temperatures through a combination of solar and wind energy.

Why did my solar company use my chimney to mount equipment? Is this normal or a sign of fraud? What are your legal rights in this case?

The low efficiency, the bulk size and the high dependency on the solar irradiation are the major issues experienced in the solar chimney power plants. Since the implementation of the first prototype in ...

Solar chimney power generation scam revealed
