Current, comprehensive coverage of the Solar Power Generation Industry. Includes: industry forecasts, trends, financial information & detailed analysis. Updated 11/24/2025.

Founded in 2019, Savion develops large-scale solar and energy storage projects across 28 states. Tango will manage 496 megawatts of Savion-developed solar projects in Ohio, Kentucky, ...

The distributed solar sector, including residential, commercial, industrial and community solar projects, continues to attract capital and build projects. Two developers recently announced ...

As the top supplier of clean energy to corporations worldwide, we're a leading developer, owner, and operator of renewable, thermal, LNG, and battery storage facilities, and the largest US-based global ...

We expect the combined share of generation from solar power and wind power to rise from about 18% in 2025 to about 21% in 2027. In our STEO forecast, utility-scale solar is the fastest ...

Solar power in China China's solar potential Wind and solar surpassed a quarter of China's electricity generation for the first time in April 2025.

OverviewHistorySolar resourcesSolar photovoltaicsConcentrated solar powerSolar water heatingEffects on the global solar power industryGovernment incentivesChina is the largest market in the world for both photovoltaics (PV) and solar thermal energy. Its PV capacity crossed 1,000 gigawatt (one terawatt, 1 TW) in May 2025. By June 2025, China's PV capacity surpassed 1,100 gigawatt. In 2024, China added 277 gigawatts (GW) of solar power, which was equivalent to 15% of the world's total cumulative installed solar capacity.

Our U.S. teams have worked over the years to develop strong positions across the entire value chain in solar energy, designing, financing, building and operating large-scale photovoltaic sites that can ...

Norton Rose Fulbright represented Perennial Power Holdings, Inc. to establish Perennial Renewables LLC, a

Solar power generation and holdings

limited liability company that develops renewable energy projects with a focus on solar power ...

Like every year around this time, we've taken stock of how these new additions have impacted the order and division of America's 50 largest solar PV portfolio owners.
