---

In addition to the latest EU solar PV deployment figures from the EU Solar Market Outlook 2025-2030, published in December 2025, the Navigator now also includes historical battery ...

Amsterdam, September 30, 2025 - Sungrow, global leading PV inverter and energy storage system (ESS) provider, today announced the successful grid connection of the first 400MWh of ENGIE's ...

SolarPower Europe warns that, despite projecting to reach 400 GWh by 2029, the region needs at least 780 GWh to meet its energy flexibility goals. Battery storage is no longer an optional ...

In Southern Europe, Italy, Spain and Portugal present diverse opportunities for BESS, albeit with generally lower mean daily price spreads, Italy and Portugal both around EUR77/MWh and ...

So, what factors lie behind the soaring popularity of battery storage projects across Europe, and what lessons can we learn for spreading that enthusiasm around the rest of the ...

EU invests EUR852m in six battery projects to reduce dependency and accelerate industrialization, targeting ~56 GWh by 2030 and strengthening quality, suppliers and logistics.

Under the EU's flagship research programs, Horizon Europe and Horizon 2020, numerous energy storage projects are being funded to develop innovative, scalable storage solutions.

Europe is racing to add very large grid batteries to balance rising wind and solar output. As of mid-late 2025, four utility-scale Battery Energy Storage System (BESS) projects stand out by ...

In this second installment of our two-part series on Battery Energy Storage Systems (BESS) in Europe, we delve into the transformative projects shaping the continent's energy ...
