The supercapacitor market in Sri Lanka is regulated by policies that promote technological innovation and energy storage solutions. The government encourages research and development in ...

Here's your chance to be part of history as we embark on an incredible journey as the first Sri Lankan supercapacitor startup!

By partnering with universities, electrical companies, and our customers, we can explore new applications, educate the market, and drive supercapacitor adoption across industries.

Volfpack Energy Pvt Ltd, launched in October 2022, is transforming clean energy storage with affordable, high-performance graphene-based supercapacitors. Offering four times the capacity of ...

Volfpack Energy develops supercapacitors powered by a unique graphene formula, boasting over 4x the typical capacity. With their reported long lifespan and rapid response, they're well suited to manage ...

Brand: JCCON. Series: Supercapacitor. Voltage: 5.5V. Type: C-Type, V-Type, H-Type. Capacitance: 0.1F 0.22F 0.33F 0.47F 0.68F 1F 1.5F 4.0F. Operating temperature: -40~70?. Capacity deviation: ...

Hey, we're Volfpack Energy, a gutsy Sri Lankan crew shaking up the energy storage game. Since 2022, we've been building supercapacitors that pack a serious punch while keeping things green....

Market Forecast By Type (Ceramic, Electrolytic, Film, Supercapacitors), By Application (Power Distribution, Renewable Energy, Industrial Electronics, Electric Vehicles), By Dielectric Material ...

Discover how advanced supercapacitor technology is transforming power management in renewable energy, transportation, and industrial applications. Learn why high-performance energy storage ...

We are Volfpack Energy, a Sri Lanka-based company driving the future of sustainable energy storage. Our

Sri Lanka supercapacitor manufacturer

team of innovators designs advanced supercapacitors that charge faster and store more energy ...
