The Sungrow 1PH Hybrid Inverter 3kW is designed for small residential installations, offering dual MPPTs for maximum energy yield. It is optimizer-ready and compatible with the Sungrow SPS600S Optimizer, ...

SG3.0RS-L Sungrow offers solar inverters with a high efficiency of over 99%, ranging from 450W to 8.8 MW. Besides, Sungrow PV inverters can be converted on any desired scale.

Battery voltage range from 80 to 460 V: The inverter offers an impressive voltage range, ideal for retrofits and new installations. Intelligent PID recovery function: The built-in function ensures the long-term performance of your ...

The Sungrow SG3RS is a single-phase inverter solution, with 3kW of inverter capacity. This model offers two Multiple Power Point Tracker or MPPT, allowing for connection to two independent solar arrays of panels that ...

Residential grid connected solar inverter with dual maximum power point tracking (MPPT) and WiFi dongle.

For more information on the processing of personal data, please see our Privacy Policy. I have read and agree to the Sungrow Terms of Use . I would like to receive news, updates, and special offers from Sungrow via email. ...

Sungrow PREMIUM 3kW Single Phase Solar Inverter - SG3K-D offers high efficiency with a max of 98.4% and European efficiency of 98.0%. It supports flexible PV string configurations and has smart management ...

Designed to handle high-power photovoltaic (PV) modules, the 3kW inverter is ideal for optimizing energy production in a variety of solar power systems. Whether used in homes, small businesses, or ...

Sungrow SG3.0RS-V13 is compatible with high-power photovoltaic modules and bifacial modules, ensuring high performance. Thanks to its compatibility with the PID function, the wear of photovoltaic panels will ...

Sungrow 3kW inverter

The Sungrow SG3.0RS is an advanced 3kW 1-phase string inverter, perfect for medium-sized residential solar systems. With 2 Maximum Power Point Trackers (MPPTs), it effectively optimises energy production from ...
