-----

Multiple turbines that are taller than 750 feet are collapsing across the world, with the tallest--784 feet in stature--falling in Germany in September 2021. To put it in perspective, those...

Just last May, a turbine blade in the Dogger Bank Wind Farm--a ...

While wind energy remains a key part of global electricity, the blade crisis shows that even green power can face serious challenges. Every crack, every dent, and every missed detail ...

Within hours of fiberglass from a broken offshore wind turbine washing ashore on Nantucket, clean energy and anti-wind advocates jumped on the story, and two competing narratives ...

To further study the structural failure mechanism and response characteristics of large wind turbine blades under extreme conditions, a full-scale 48.8 m blade collapse test was carried out.

Just last May, a turbine blade in the Dogger Bank Wind Farm--a 277-turbine, 3.6-gigawatt offshore wind project roughly 62 miles east of Newcastle upon Tyne, England--crumbled ...

Multiple turbines that are taller than 750 feet are collapsing across ...

A blade that fell from a 300-foot-tall turbine and into a Massachusetts cranberry bog has sparked critics of wind energy to renew their call for the state Legislature to back away from its...

A wind turbine blade fell in a Plymouth cranberry bog on Nov. 7. Officials and the operator are assessing the site and cause, and planning cleanup.

The structural collapse of a wind turbine blade can occur if the blade is subject to extreme loads, exceeds its designed strength, and/or as a result of degradation and fatigue of the blade elements, ...

## The real collapse of wind turbine blades

A trio of catastrophic turbine failures has rocked the High Prairie facility, with falling blades and collapsing towers shocking nearby residents. No injuries have been reported in any of the ...

The collapse of a giant wind turbine blade off the Massachusetts coast confirmed Peter Kaizer's worst fears about the dangers a new clean energy business could pose to fishermen like...
