Bench Power Supply, 60V 10A 300W Adjustable Bench Power Supply, with 10mV / 1mA High Resolution 4-Digits 2.8 inch LCD Display, USB Fast Charging (110V Input Voltage)

Our programmable DC power supplies are designed with ease of use in mind, featuring a user-friendly interface that makes it easy to program and adjust your settings.

Discover top programmable power supply options tailored to every need--from lab precision to industrial high-power demands. Learn key features, selection tips, and how to pick the ...

We offer a broad range of programmable, fixed, and variable dc bench power supplies.

Programmable DC power supplies to suit many applications including healthcare, harsh industrial, avionics/defense, test and measurement and semi-fab.

Matrix switching of the 10 cells in the pack allows for complete flexibility in battery configuration from 10P1S to 1P10S and anything in between, providing highly granular voltage vs. ...

Power your tests with programmable voltage and current control in a compact benchtop design. With high accuracy, remote operation, and advanced sequencing, it's built for automation and precision.

Our space-saving designs, incorporating digital signal processing and multiple communication protocols, ensure seamless integration into applications, scalable from 1.5kW to 30kW.

These drivers let you program the output current to the exact level you need. Because they cover a wide range of currents, you don't need to have multiple different ones on hand for repairs. They convert ...

Mouser offers inventory, pricing, & datasheets for Programmable Power Supplies - Bench Top.
